Online Security Tips

Protect yourself when you're online!

Create strong passwords.
Use passwords that are hard to guess, and keep track of it using a password manager.

Be careful of what you download.
Don't download content from sites that are not trustworthy. These may contain malware.

Turn on privacy settings.
Take control of how companies use your data by enabling privacy features.

Think before you post.
Avoid posting sensitive personal information online. Don't share too much information either.

Use an anti-virus program.
Keep your anti-virus software updated so it can detect potential threats in your system.
